

Weekly Maths Tasks

Every Monday, White Rose Maths will release a sequence of Maths lessons.

Follow this link:

<https://whiterosemaths.com/>.

BBC Bitesize are now linking with White Rose Maths to create the activities and videos necessary.

Maths Challenge

White Rose Maths have been working closely with the BBC Bitesize Daily Maths team to make a clear learning plan for the summer term. We all agree that it's vital for children to be as well-prepared as possible for their next school year. To help make this happen, we've set out a 12-week learning plan that means children can:

- make sure they understand the main concepts they need for their work next year
- cover any new learning that they have not yet have done in school.

<https://www.bbc.co.uk/bitesize/tags/zhgppg8/year-5-and-p6-lessons/1>

In this 2-week scheme, Year 5 are looking at multiplication, division, perimeter and area.

Weekly English Tasks

This week's spellings

Learn these 10 spellings:

thorough, rough, bought, cough, though, plough, enough, drought, sought, dough.

Reading task

Sign up to the follow website free of charge to access eBooks and Audiobooks.

<https://www.oxfordowl.co.uk/for-home/find-a-book/library-page>

Search the eBook Library, look for books in age range of 9-11 years. The second eBook we will use is **Air Raid!**

Reading Challenge

Start reading Air Raid! and think about what you would do if you were in that situation. Think back to last term when we looked at The Lion, the Witch and the Wardrobe and the air raid that happened as the metal birds were dropping their bombs high above London.

Write a diary entry as a child living through an air raid. Focus on their feelings, the sights and sounds around them. You could write as Edmund or one of his siblings. You could make up a character, or put yourself in the scene. It could be a Butterfly Bombing raid, which would have a very different outcome.

Don't forget to write in the past tense, and focus on feelings. Please share your examples with the school so that I can read and enjoy them!

Year 5: Home-School Learning Menu 04.05.20

Topic Project Menu: These activities should be completed over a number of weeks and should be used to support your child's learning in other areas aside from Maths and English. We would love to see photographs of this completed work or examples of work of quotes about this work through our school email address: info@worlabyacademy.org.uk

	I like to explore	I like being creative	I like being kind and helpful	Time to get physical!
Strengthen your learning	Explore your garden. What bugs can you find? Can you sketch the bug and find out the name of it?	Develop your understanding of coding through Scratch or Light Bot (both free to download).	Make a snack or drink for a member of your family.	Complete a home workout (like Joe Wicks) with a relative!
Deepen your learning	While visiting your garden, you meet an old tree that can talk. What stories would it tell?	Create coding games using scratch: https://brainbasket.org/en/free-scratch-lessons/	Help with some chores in the house.	Create a training circuit in the garden. See if you can get another family member to join in. How many laps can you do? Can you add another lap each day?
Take the challenge!	While exploring habitats, you discover a new insect! What does it look like? How does it live its life? What will you name it? Do you think it will have any medical benefit to the world?	Create your own game, making a simple rules booklet, using simple instructions. The game may use items that can be found in your house (ask adults for permission on which items you use!).	Write an acrostic poem for someone in your family. Describe the things you like about this person.	Help out with some gardening and make a note of the insects and birds visiting the garden.
