

ACTIVITY CHALLENGE

This week Mrs Clark has set all children and their families an activity challenge. There is an introductory video followed by 2 video clips of Mrs Clark demonstrating the challenge. Finally there is a list of instructions. You can find these on Twitter **@DeltaWorlaby**. We would love you to get involved with your families and send us photos, clips or messages.

To link with this we are aiming to raise funds for our nominated Delta Charity. As you are probably aware Delta Academy Trust supports **The Air Ambulance** and we wanted to combine keeping active with charity. So before half term we would like you to complete the challenges. Where possible we would love you to ask your friends or family to sponsor you to complete the challenges. We would also love your families to get involved and complete the challenges with you.

Please help us reach our target of £150 by visiting our just giving page

	History: Who was Tutankhamun?	Geography: Sustainability and plastics	Science: How plants reproduce	Design & Technology: How we build	Art & Design: Media and Materials

Year 5: Home-School Learning Menu 11.05.20

Topic Project Menu: These activities should be completed over a number of weeks and should be used to support your child's learning in other areas aside from Maths and English. We would love to see photographs of this completed work or examples of work of quotes about this work through our school email address: info@worlabyacademy.org.uk

	I like to explore	I like being creative	I like being kind and helpful	Time to get physical!
Strengthen your learning	Explore the historical legacy of a nation built around a river. You could choose the Egyptians or the Indus Valley Civilization and make a PPT about them.	Develop your understanding of coding through the Hour of Code website. https://code.org/learn	Make a card or a gift for someone who is special to you.	Create a fitness programme that is timed or measured, so that an improvement can be recorded across a number of days/weeks.
Deepen your learning	Considering river civilizations, compare them with modern river cities in the UK: London, Nottingham, Liverpool etc.	Complete levels on unfamiliar games to understand how to debug programs and fix errors in commands chosen.	Create a gift for someone special to you that allows them to share special memories, holiday photos, Pop Art photos etc.	Challenge others in your household to take on the challenges and see who can make the greatest improvement.
Take the challenge!	While exploring river communities, research the uses of rivers and present your findings on a poster or PPT. Consider tourism as well as practical uses of rivers.	Create your own game on Scratch. Think about the rules of the game/quiz and think about who in your household would be able to play it. Teach someone how to play it with you.	Create a video message to someone who is special to you, perhaps someone who lives far away and you haven't seen them in a while.	Create a competition between members of your household: Throwing, jumping, number of sit-ups, star jumps etc. Measure your heart rate during these activities. What do you notice?
