

Maths Tasks

Every Monday, BBC Bitesize will release a sequence of Maths lessons. Follow this link: https://www.bbc.co.uk/bitesize/dailylessons	Monday	Tuesday	Wednesday	Thursday	Friday
	Lesson 1: The percent symbol and its meaning	Lesson 2: Write percentages as a decimal and fraction	Lesson 3: Adding decimals using the formal method and involving exchange	Lesson 4: Add decimals with different decimal places	Lesson 5: Challenge of the week

English Tasks

This week's spellings	Learn these 10 spellings: doubt, island, thistle, lamb, solemn, knight, scissors, yacht, library, salmon				
Reading & Writing tasks Every Monday, BBC Bitesize will release a sequence of Writing lessons. Follow this link: https://www.bbc.co.uk/bitesize/dailylessons	Monday	Tuesday	Wednesday	Thursday	Friday
	Lesson 1: Analysing and performing poems	Lesson 2: Imagery and figurative language in poetry	Lesson 3: Writing a nonsense poem	Lesson 4: Writing a narrative poem	Lesson 5: Reading lesson – The Parent Agency by David Baddiel

Wider Curriculum Tasks

Every Monday, BBC Bitesize will release a sequence of lessons. Follow this link: https://www.bbc.co.uk/bitesize/dailylessons	Monday	Tuesday	Wednesday	Thursday	Friday
	History: The Vikings	Geography: The Lake District	Science: The circulatory system	Design and Technology: Structures	Computing: Should I believe everything I read online?

Year 5: Home-School Learning Menu 15.06.20

Topic Project Menu: These activities should be completed over a number of weeks and should be used to support your child's learning in other areas aside from Maths and English. We would love to see photographs of this completed work or examples of work of quotes about this work through our school email address: info@worlabyacademy.org.uk

	I like to explore	I like being creative	I like being kind and helpful	Time to get physical!
Strengthen your learning	Identify all the components needed to create both a parallel and series circuit. Use the scientific names and explain their purpose within the circuit.	Research the artist Hokusai and take a look at some of the different paintings. Create a fact file about Hokusai and include your favourite painting.	Read a story to your siblings or other members of your family.	Take a walk in your local area with an adult from your household each day. If you can, take a camera/phone with you to take a few pictures of your surroundings. Sketch your favourite picture.
Deepen your learning	Explain the impact of using a higher resistance within an electrical circuit and use a diagram to support your ideas.	Create a fact file about Hokusai and include your favourite painting. Can you describe the different techniques used? Choose your favourite painting and begin to sketch your own interpretation of this.	Create a card or message for your neighbour to let them know you care. Can you include a poem for them?	Find Cosmic Kids Yoga or GoNoodle and complete 3 activities a day to look after your physical and mental health.
Take the challenge!	Create an information text explaining what components are needed to create a simple, series and parallel circuit. Explain the difference between conductors and insulators, giving examples of each. You can use PowerPoint, Word, create a leaflet or a poster for this work.	Choose your favourite Hokusai painting and begin to sketch your own interpretation of this. Hokusai used watercolours to add to the different paintings. Use the materials you have at home to add your own colour. If you don't have materials at home, have a go at using Paint on an IT device.	Complete a random act of kindness each day using the document at the bottom of the page.	Find Cosmic Kids Yoga or GoNoodle and complete 3 activities a day to look after your physical and mental health. Can you create your own mindfulness routine and record it for others to use? Make sure you explain the routine step by step!
